WELCOME TO SINGLE DECLARATION – EXPORTS!

The User Manual for Single Declaration – Exports provides a step-by-step guide to the PSW Users on how to file a Single Declaration for the clearance of export cargo. While describing the key features of the module, this manual also outlines some key responsibilities and obligations of both the PSW and the User.

1 INTRODUCTION

Pakistan Single Window (PSW) is the trade related National Single Window (NSW) for efficient management of external trade. The NSW is an electronic portal *that allows parties involved in cross border trade and transport to lodge standardized information and documents using a single-entry point to fulfil all import, export, and transit related regulatory requirements.* The information is transmitted electronically and individual data elements for clearance and regulatory approvals need only to be submitted once. Use of the PSW portal is allowed to authorized users who have completed the subscription process. Once subscribed and registered with Customs, users can access the PSW to perform cross border trade and transit related activities. For more to know about PSW please visit our website www.psw.gov.pk

2 BACKGROUND

As a signatory to the WTO's Trade Facilitation Agreement (2015), Pakistan has notified the establishment of a 'National Single Window' (NSW) as a 'Category C' commitment with effect from 22nd February 2017. To implement NSW, the Government of Pakistan has promulgated the Pakistan Single Window Act, 2021 while declaring Pakistan Customs as the Lead Agency. Pakistan Customs has established a dedicated PSW Company (PSWC), as a not-for-profit Company under Companies Act, 2017, to implement the PSW program. The PSWC has been designated as the Operating Entity under the PSW Act for developing and maintaining the PSW portal in collaboration with 77 different public sector entities involved in regulation of cross border trade in Pakistan. The PSWC will digitize the processes related to regulations of international trade in the public sector which will benefit economic operators like importers, exporters, freight forwarders, clearing agents, shipping companies, transporters etc. by reducing complication, cost, and time involved in achieving compliance with such regulations. The implementation of PSW program will also enhance government controls and transparency. By creating a national electronic trade and logistics platform, the PSW will help Pakistan integrate better into the regional and global single window systems. It will facilitate integration into global value chains and enable Pakistan to become a hub for regional and international trade as well as transit.

3 WHAT IS A SINGLE DECLARATION?

Single Declaration is the submission of electronic data/information for clearance of import, export, and transit related goods at a single point. Different Cross Border Regulatory Agencies prescribe data requirements which are often overlapping. To avoid repetitive submission of data, it is necessary to have a harmonized data set. The Single Declaration is actually based on the concept of developing a 'harmonized data set' so that for a trade transaction or a transport movement to take place, the concerned actors are not obligated to submit the same data repeatedly to different agencies. Information submitted once shall be re-used.

Regulatory permissions will be given without traders having to approach different agencies. Information relevant to different agencies shall be submitted to the concerned agencies for

processing. Single declaration will only cover 'clearance related' applications and declarations of Customs and other government agencies.

4 SALIENT FEATURES

- The Single Declaration being one of the core features of the PSW allows parties involved in trade and transport to lodge standardized information and documents on a single-entry point to fulfill all import, export, and transit-related regulatory requirements. The "Single Declaration - Exports" provides a single interface to its users for filing of export declarations.
- The users will submit integrated import and export declarations that contain all regulatory/clearance related information required by the OGAs. Separate submission of forms/declarations to OGAs will be eliminated.
- All data fields and requirements will be consolidated into a single data dictionary aligned to the WCO data model eliminating redundant information. This is to enable standardization and single request for data fields and incremental data submission.
- The system will automatically route applications on the basis of declarations and mark for decisions to the relevant OGAs using clearly defined business rules to identify the OGA(s) whose specific action is required for release of the consignment.
- The declaration will be filed on the basis of Integrated Tariff Management System triggering regulatory and Customs compliance requirements, and Integrated Risk Management System to select consignments for inspections, sampling, and testing.
- Of all the information provided by the trader, concerned agencies will be transmitted only that which pertains to them.
- Single Declaration will promote trade facilitation by reducing dwell time and cost of clearance.

5 PRE-REQUISITES FOR FILING A SINGLE DECLARATION - EXPORTS

- The user must be an active subscriber of PSW and should have registration with Pakistan Customs.
- The user must have an active bank account with an Authorized Dealer.
- The banking profile of the user must be integrated with PSW.

6 SYSTEM REQUIREMENTS

To use PSW Portal on Windows®, the user will require:

- Google Chrome Browser
- Windows 7, Windows 8, Windows 8.1, Windows 10 or later
- An Intel Pentium 4 processor or later that's SSE3 capable to use PSW Portal on Mac®, the user will require:
 - Google Chrome Browser
 - OS X El Capitan 10.11 or later

7. STEP BY STEP PROCESS

7.1 Single Declaration - Exports

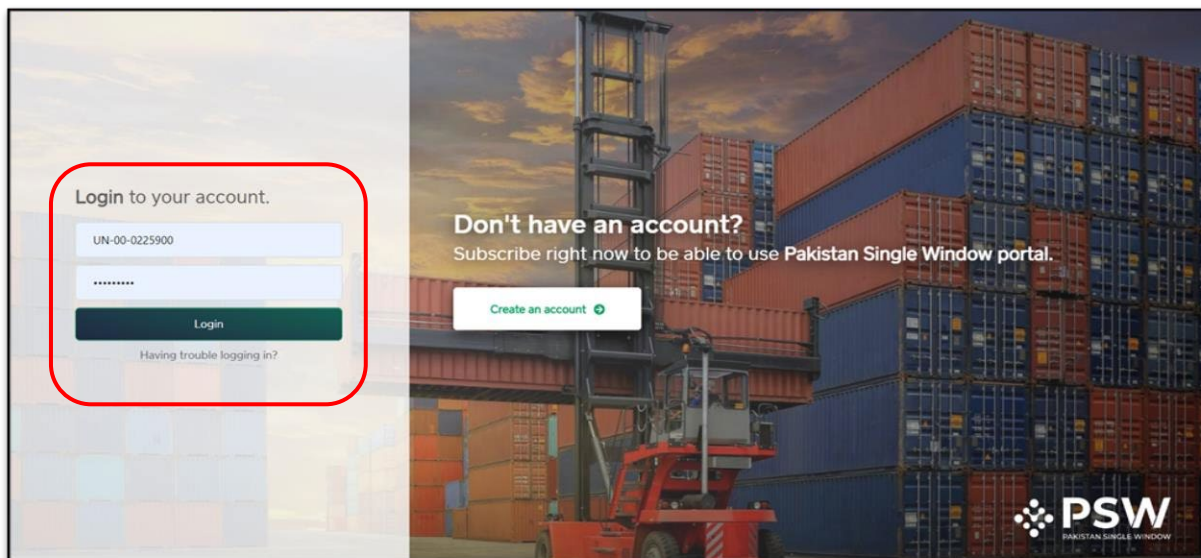

7.1.1 Filing of a Single Declaration - Exports

- i. Please visit “www.psw.gov.pk” and click on the “Login” option.

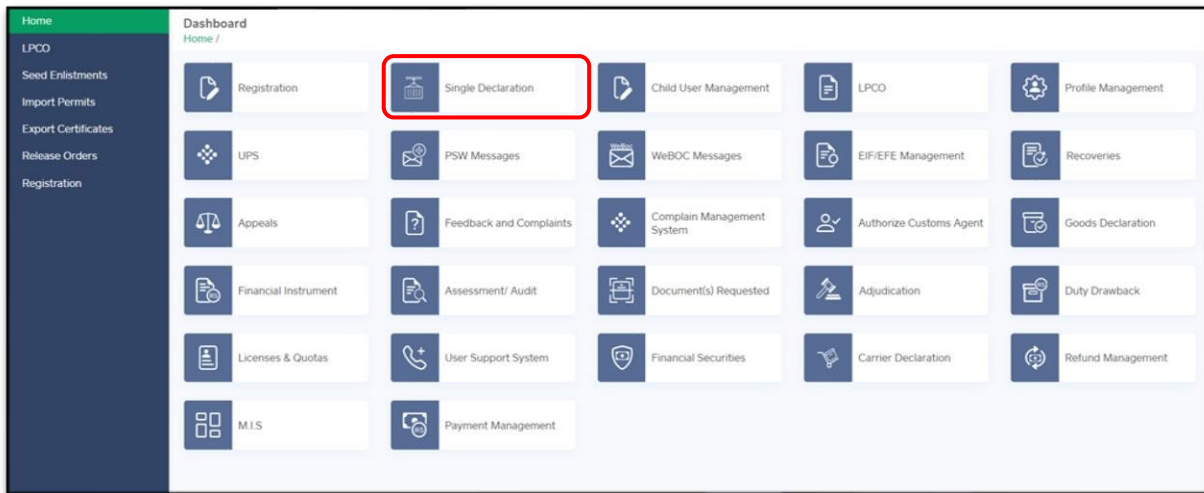

7.1.1-a PSW Web Application

- ii. After clicking on the login option, you will be redirected to login interface to enter the login credentials.

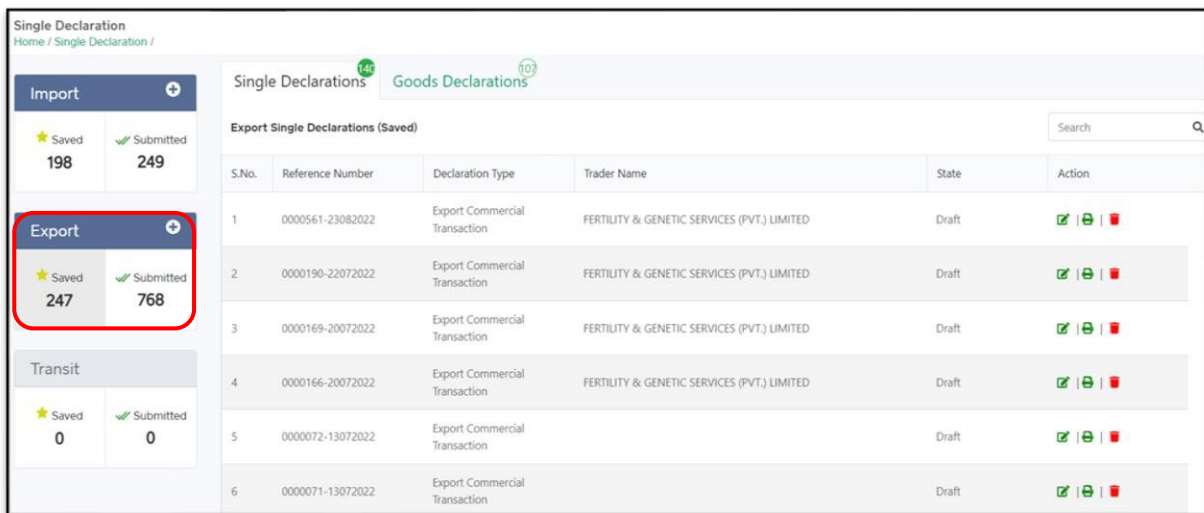

- 7.1.1-b Login Interface iii. Once the login credentials are validated, you will be redirected to the dashboard.

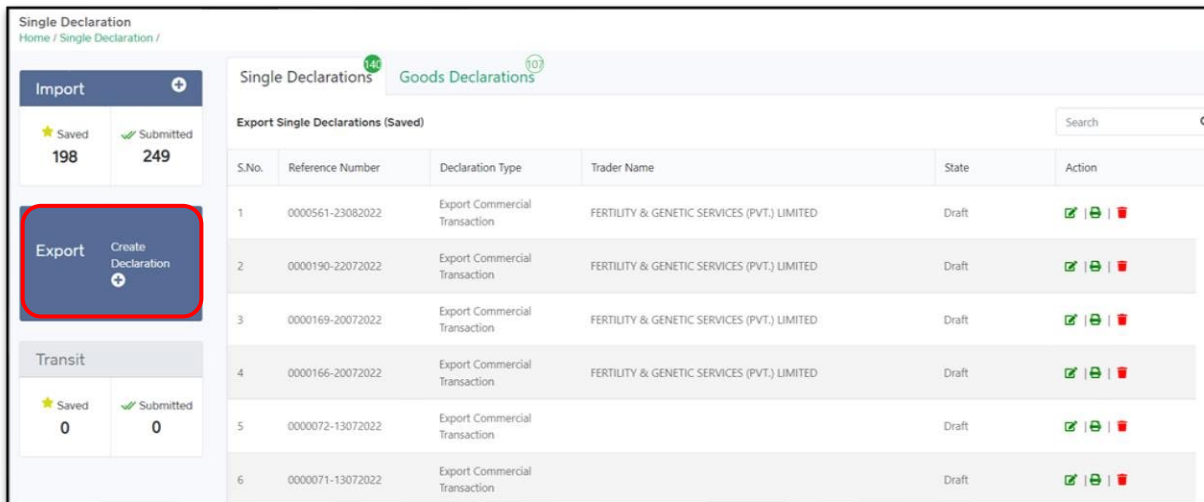

7.1.1-c Dashboard

iv. Click on the “Single Declaration” option. Upon clicking on the option, “Single Declaration” interface will appear.

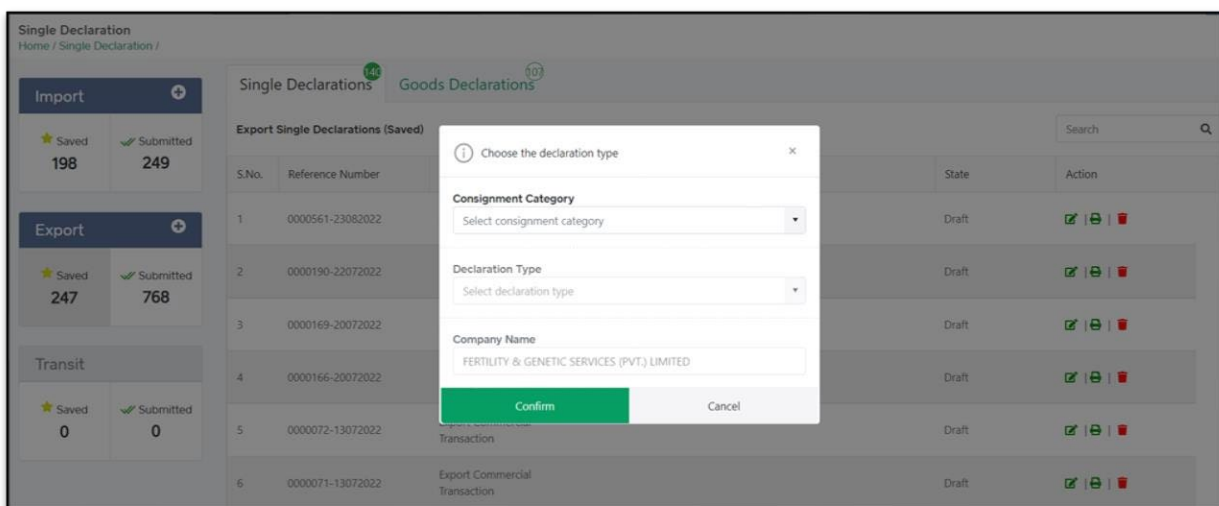

7.1.1-d Single Declaration Interface

v. Hover on “Export” option. “Create Declaration” option will appear.

7.1.1-e Single Declaration Interface

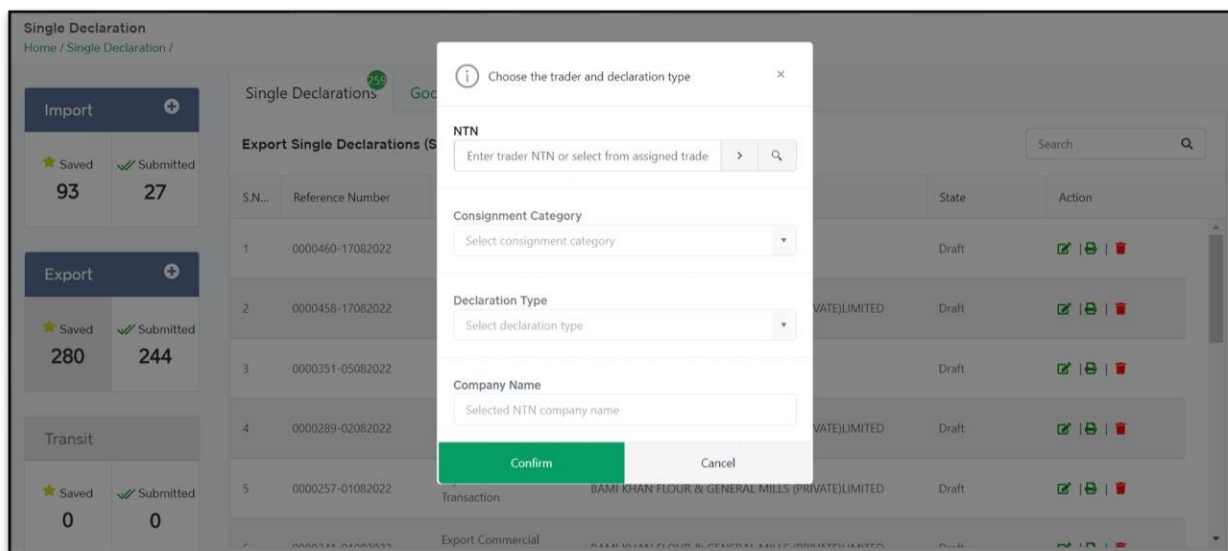

- vi. Upon clicking on the option, a pop up will appear in which the user will have to input “Consignment Category,” “Declaration Type” and “Company Name.”

7.1.1-f Create Single Declaration - Exports (Trader)

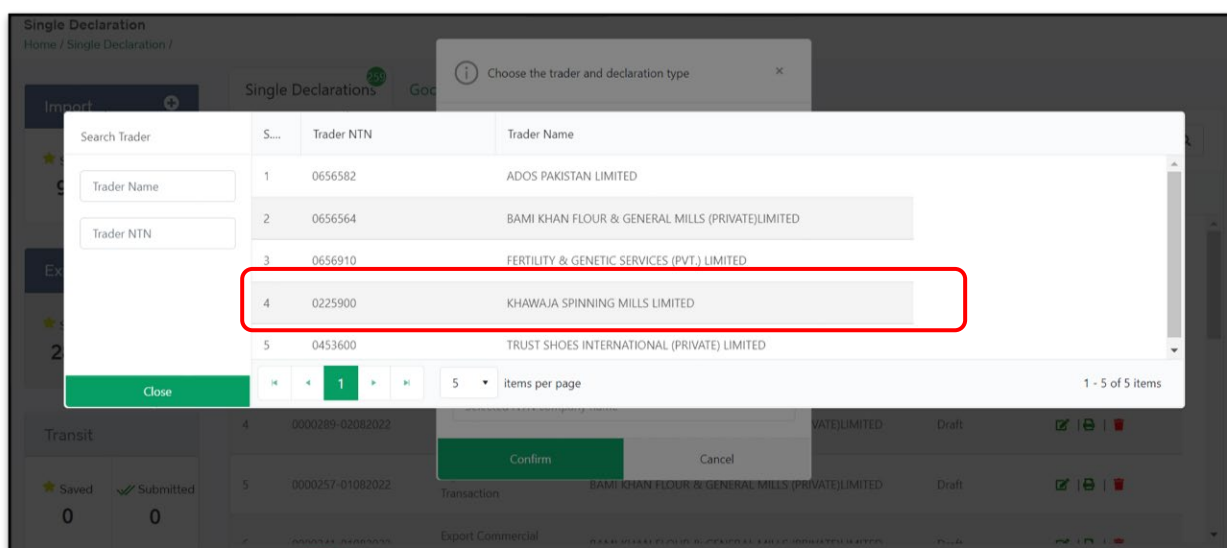

- vii. Select the valid:
- Consignment Category
 - Declaration Type
 - Company Name
- “Company Name” will be auto fetched from the Trader’s profile.
 - Distinct categories of “Declaration Type” will be populated against the selected “Consignment Category.”
 - In case, the user is a Customs Agent, the Customs Agent will have to select the relevant Trader in this step.

Note: Only the names of those traders will appear here who have authorized the respective Customs Agent for trade related activities.

7.1.1-g Create Single Declaration - Exports (Customs Agent)

- To select the Trader, click on Search icon of the field labelled NTN and the “Search Trader” interface will appear.

7.1.1-h Select Trader Interface

- Choose the relevant trader and the data fields labelled NTN and Company Name in the “Transaction Type” interface will be filled automatically.
- Click on “Save” to save the Single Declaration or click on “Save & Proceed” to save the Single Declaration and proceed to the next step.
- Upon clicking on save & proceed, “Consignment Information” interface will appear.

7.1.1-i Create Single Declaration - Exports – Step 1: Consignment Information

viii. In “Consignment Information,” NTN will be fetched automatically from the Trader’s profile. Select the valid “Collectorate.” Upon selecting the Collectorate, “Mode of Transport” option will be auto populated according to the selected Collectorate. Similarly, additional fields will appear once the Collectorate and Consignment Mode options are selected.

Note: Data fields in the “Consignment Information” section vary according to the selected Collectorate, Mode of Transport and Consignment Mode.

7.1.1-j Create Single Declaration - Exports – Step 1: Consignment Information

Fill in the following fields:

- a. Mode of Transport
- b. Consignment Mode
- c. Consignee Name
- d. Consignee Address
- e. BL Number
- f. BL Date
- g. Port of Shipment
- h. Destination Country
- i. Port of Discharge
- j. Place of Delivery
- k. Shipping/Air Line
- l. Gross Weight
- m. Net Weight
- n. Marks
- o. Shed/Location
- p. Terminal

Note: If the Mode of Transport is "Air," the UOM of Gross Weight and Net Weight will be "KG," otherwise the UOM will be "MT."

- ix. To add "Packages Information" click on "Add Package" option in the Consignment Information section. Upon clicking on the "Add Package" option, "Add Package" interface will appear.

7.1.1-k Add Package Interface

- Enter “Number of Packages” and select the “Package Type.”
 - Click on “Add” button to add the packages.
- x. The added information of packages will be displayed in the respective section, and it can be deleted before submission of the Single Declaration (if required)

- xi. Click on “Save” to save the Single Declaration. Click on “Save & Proceed” to save the Single Declaration and proceed to the next step. Upon clicking on save & proceed, “Financial Information” interface will appear.

The screenshot displays the 'Single Declaration' web interface, specifically Step 2 of 6: Financial Information. The interface is divided into several sections:

- Consignment Information:** Trade Type: **Export**, Consignment Category: **Commercial**, Declaration Type: **Export Commercial Transaction**.
- Financial Information:** Currency (Please select currency), Exchange Rate (0), Delivery Term (Select Delivery Term).
- Bank Name:** Please select bank name, IBAN (Please select IBAN), Mode of Payment (Please select Mode of Payment).
- Financial Instrument No:** Enter Financial Instrument number or select (with a search icon) and an **+ Add** button.
- Table:** A table with columns: S No., Financial Instrument No, Mode Of Payment, Consignor Name, Consignee Name. It shows 'No records available'.
- FOB:** 0
- Freight:** 0
- CFR:** 0
- Insurance (Optional):** 0 %
- Landing Charges (Optional):** 0 %
- Other Charges (Optional):** 0 %

7.1.1-I Create Single Declaration - Exports – Step 2: Financial Information

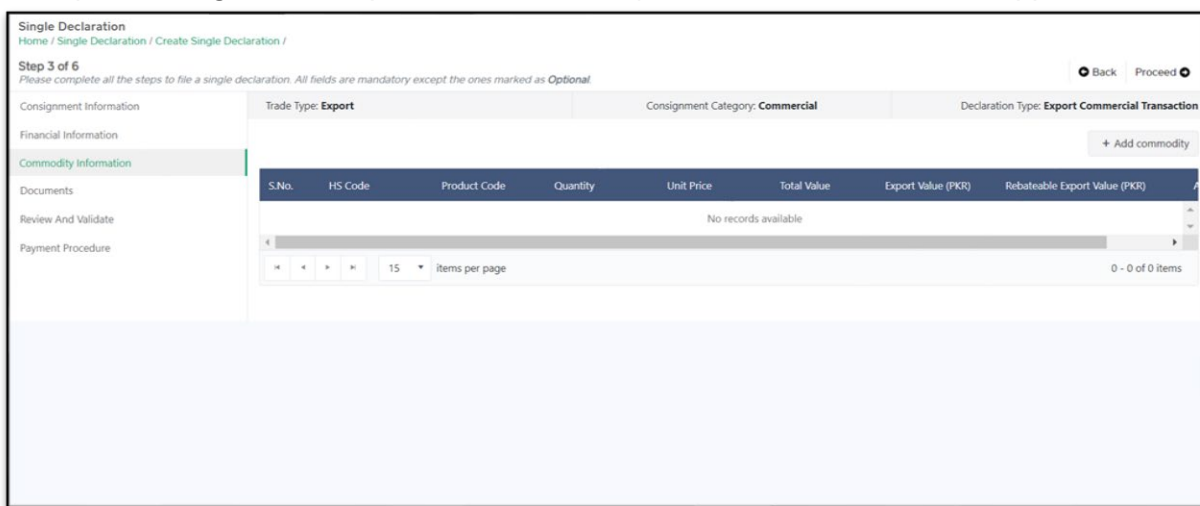

- xii. To add a financial instrument, select the following:
- Currency
 - Delivery Term
 - Bank Name
 - IBAN
 - Mode of Payment
 - Financial Instrument No.
- The option “Mode of Payment” will only show the authorized payment modes available to the user.
 - Once the currency is selected, “Exchange Rate” will appear automatically.
 - The user can also view the details of a Financial Instrument at the time of selection.
 - Click on “Add” button to add the Financial Instrument.

Note: Mode of Payment options will vary as determined by the selected Bank. In case of “Open Account,” Financial Instrument association is not required. Also, the user can associate multiple Financial Instruments with a Single Declaration.

Select the “Delivery Term” and enter the following where applicable:

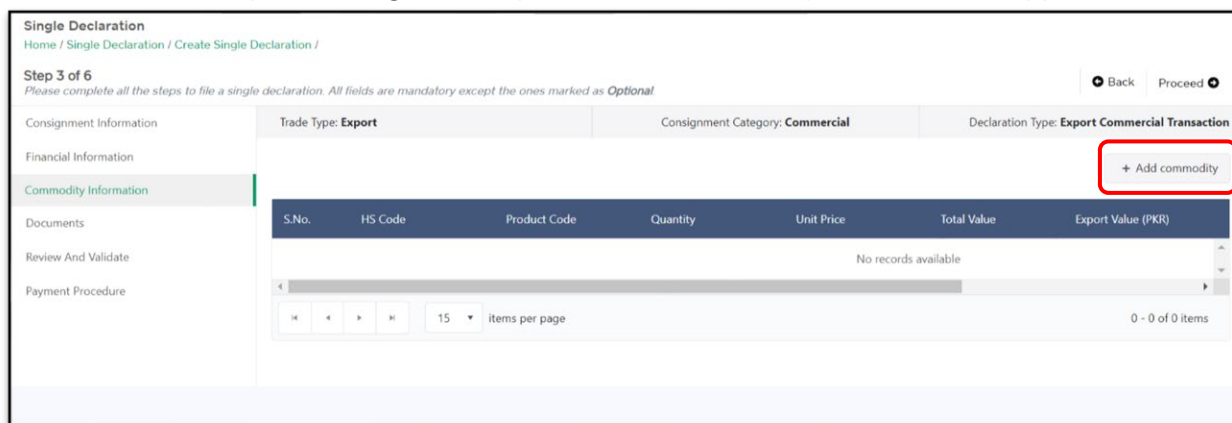

- a. FOB Value
 - b. Freight Value
 - c. CFR Value
 - d. Insurance Value or %
 - e. Landing Charges or %
 - f. Other Charges
- Click on “Save” to save the Single Declaration. Click on “Save & Proceed” to save the Single Declaration and proceed to the next step.
 - Upon clicking on save & proceed, “Commodity Information” interface will appear.

7.1.1-m Create Single Declaration - Exports – Step 3: Commodity Information

- ii. In this step, the user enters the commodity details. Click on “Add Commodity” option to add the commodities. Upon clicking on the option, “Add Commodity” interface will appear.

7.1.1-n Create Single Declaration - Exports – Step 3: Commodity Information

- iii. The “Add Commodity” interface displays the following sections:

1. “General Information” Section:

- In this section, the user provides general information of the consignment goods including the product HS code and description.

- Upon entering the “HS Code,” the relevant “Tariff Description” is displayed automatically. Similarly, when the user selects relevant “Product Code,” the appropriate “Product Description” appears.
- Once the aforementioned information is provided by the user, the names of the concerned regulatory departments will be displayed under the sub-section titled “Regulatory Departments.”
- User is required to input data in the “Unit of Measure,” “Quantity,” “Unit Value,” “Total Value,” “Origin,” “Export Value” and “Dangerous Goods” fields wherever required.
- General information section includes “Containers information” and “Non-Duty Paid Item” subsections.

Note: Product Code refers to the 4-digit code which defines the regulatory requirements associated with a specific product.

7.1.1-o Add Commodity Interface – General Information Section

- If the user enables the option of “Quota Association,” the fields labelled “Quota Type” and “Approval No.” will also be enabled and a section titled “Locally Purchased Items” will appear.

7.1.3-b Amend Single Declaration Interface

- The “Amend Single Declaration” interface displays multiple sections consisting of the data fields which can be modified by the user.
- After updating the provided information, click on “Save and Submit” option to submit the Single Declaration amendment.
- To create a clone of the submitted Single Declaration, click on the Clone icon under the “Action” tab. The user can modify relevant data fields and save or submit the cloned Single Declaration.
- To print the submitted Single Declaration, click on the Print icon under the “Action” tab. Upon clicking on the icon, a new print screen of the relevant submitted Single Declaration along with the details will be displayed.
- To cancel the submitted Single Declaration, click on the Cancel icon under the “Action” tab. Upon clicking on the icon, a confirmation message will appear.

7.1.3-c Submitted Single Declaration Cancellation – Confirmation Message

- Click on “Yes” option for cancellation of the Single Declaration.
- A message will appear confirming that the Single Declaration is now cancelled.

Cancellation of Single Declaration Conditions:

- The Single Declaration cannot be cancelled after the consignment is gated in.
- In case, the user wants to cancel SD after gate-in, they will have to file a dray-off request which will be marked to the designated Officer of Customs for approval/rejection.

8. PROCEDURAL INSTRUCTIONS FOR USER'S GUIDANCE

8.1 Exports

- a) Using the module of “Single Declaration - Exports,” the user will be able to file Export Declarations through PSW Portal.
- b) The user will only be able to file “Single Declaration - Exports” against modes of
- c) payment authorized by the user’s bank in the banking profile communicated to PSW.

- d) While filing the “Single Declaration - Exports,” the user will be required to associate a Financial Instrument for the following payment modes:
 - i. Letter of Credit
 - ii. Contract/Collection
 - iii. Advance Payment
- e) The user will not be required to associate Financial Instrument with the Single Declaration if selected mode of payment is “Open Account.”
- f) The NTN and Business Name mentioned in the Financial Instrument must be the same as that mentioned in the Single Declaration.
- g) The currency selected in the Single Declaration must be the same as that of the Financial Instrument.
- h) For one Single Declaration, multiple Financial Instruments of the same bank can be associated, and these Financial Instruments can also be re-used for other Single Declarations in case of balance availability.
- i) Declared value in the Single Declaration must be equal to or less than the value of the associated Financial Instruments. If declared value in the Single Declaration is greater than the value of the associated Financial Instrument, submission of the Single Declaration will not be permitted by the system.
- j) The Financial Instrument must be valid for association with a Single Declaration. Expired Financial Instruments will not be accepted by the system.
- k) If multiple Financial Instruments are attached in a Single Declaration, the system will consume them based on the association order of the Financial Instruments.
- l) In case, any additional data fields/documents are required by the OGAs, the same will be displayed before the user during the Single Declaration submission process.
- m) The Single Declaration is automatically cancelled if the consignment does not arrive at the designated port within 15 days of its submission.

9. OBLIGATIONS AND RESPONSIBILITIES

9.1 Obligations of PSW

- a) PSW is responsible for safeguarding the security of any information provided by the user in connection with the “PSW System.”
- b) The users shall be entitled to all the functions and privileges available to them in the UIDs and no authority whatsoever shall deprive them from conducting any activity related to cross-border trade except in accordance with the law.
- c) PSW will make endeavors to ensure that the “PSW System” remains available for the “user” round the clock for the entire period of subscription. It will make all efforts to restore services in the shortest time possible in case of any disruption or non-availability of services due to any reason.

9.2 Obligations of the User

- a) The user will assume responsibility for any unauthorized use of their CNIC, NTN, bank account numbers, SIM card numbers, biometric verifications or any other particulars required by the PSW or its allied components for subscription, role association and further use of the system. The user is responsible for the authenticity of the information provided.

- b) The user is fully responsible for all activities that occur in the “PSW System” under the UIDs provided to them by PSW. The user will ensure that such UIDs are kept confidential and treated in a secure manner. In case of any breach of security with respect to such UIDs or use of the “PSW System,” the user must immediately notify PSW through the provided contact information.
- c) The user must not, in any case, share their PSW login credentials with anyone.
